DS

If I were to die today, would I be content that I invested my life in something that was really worthwhile?

1. Read Ecclesiastes 11:9

¿Why do you think that most people do not fear the judgment of God? _____

2. Read Psalm 90:10

How many years can we expect to live if we do not die a premature death? _____

If we compare a life of 70 years with a 24 hour day, we will observe that it more or less comes out like this:

9	3 am
18	6 am
26	9 am
35	12 noon
44	3 pm
53	6 pm
61	9 pm

As we begin a new day, we feel that there is a lot of time to do a lot of things. However each night we are surprised that it went so fast. That is the way our life is here on Earth.

It goes by really fast!

The way in which we answer the following question will pretty much determine how we will spend the rest of our life:

In what will I invest the rest of my life here on Earth?

3. The normal cycle of life for most people goes something like this:

I am going to study so I can get a good job and make money so that...

I can buy a nice car and get married and have a family and purchase a nice house and enjoy a happy and fulfilling life.

What are you investing your life in? What is so important that you are willing to spend your life for it? We are all in the process of spending our life for something... but, for you, what is that something? Each of us is spending every minute of every day. It is impossible to detain the passage of time. What are you going to spend the rest of your life for?

4. Matthew 22:37-40 gives us an overview of what a believer in Christ should invest his/her life in:

- love God**
developing an intimate, personal relationship with Him through the Word and prayer
- love my neighbor**
evangelizing the lost, following-up new believers, and raising up laborers for the harvest
